Same for my case. It was not past day 90 and is still currently not past Day 90.

My guess is that the column in that table that's labelled "current day 90" was the day 90 on whatever date that table was compiled.

That is, that column is a snapshot of what the day 90s were on the date that the table was compiled.

It does not imply that these cases are all past their day 90s. My two cases on this list are not past their day 90s.

Best,

I need updated Day 90s entered into NCR ASAP. If you need my help, send an email to me with the case number and new day 90.

Not certain how that happened. The current Day 90 in NCR is 11/1/2018.
